

## Next generation of Surge Protection for 60mm busbar systems ProTec 60 RX Series

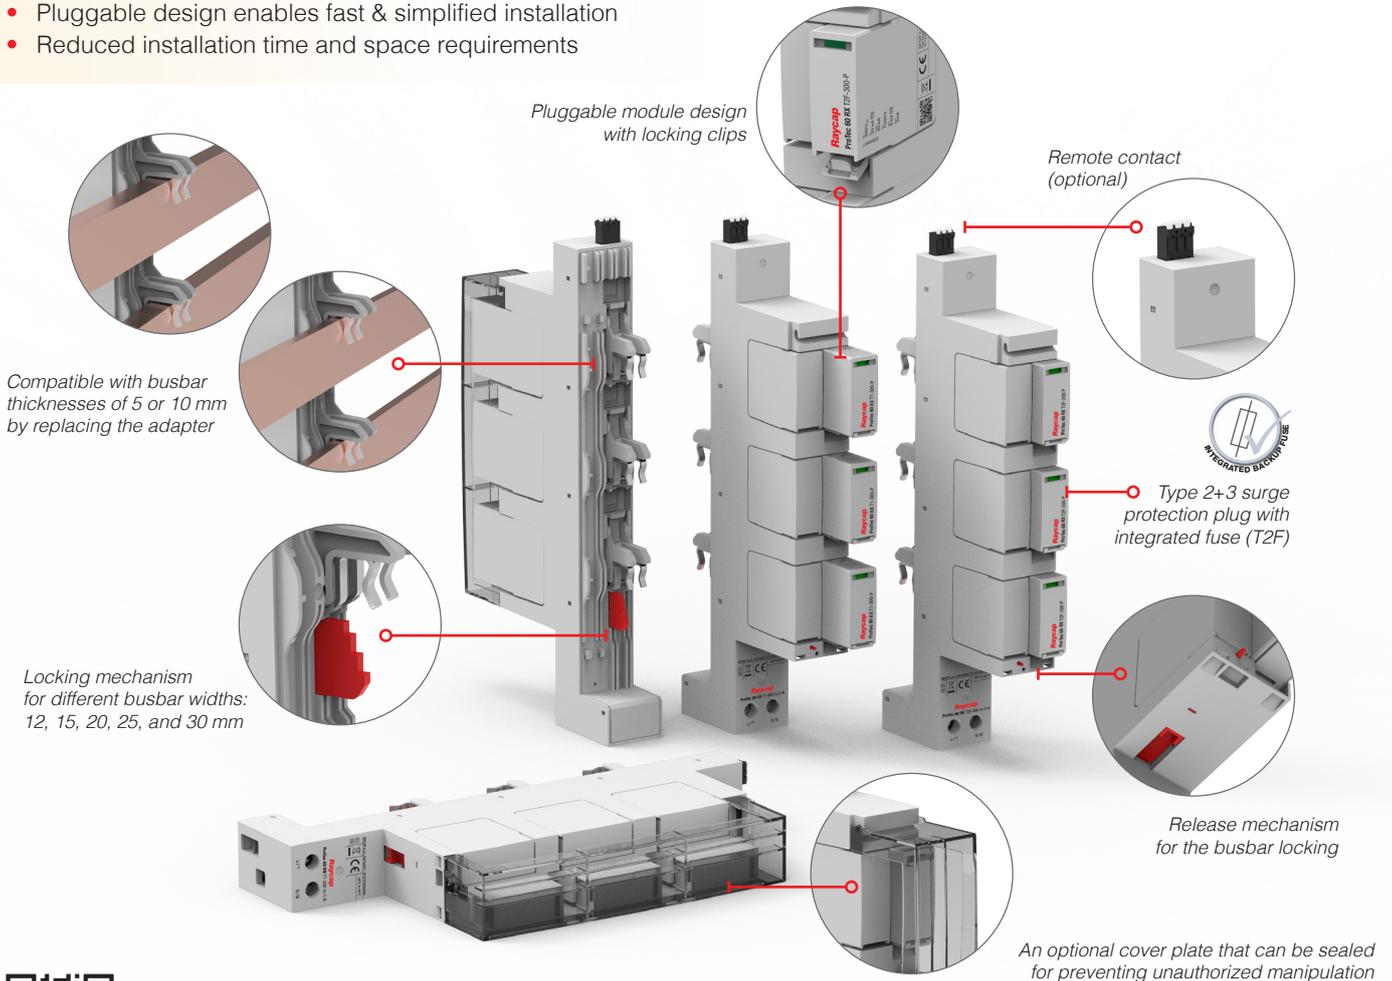

The Raycap ProTec 60mm Busbar Series reduces installation time and space requirements and enables fast and simplified installation. Shorter connections improve the overall voltage protection level, providing optimal electrical protection to the installation.

### Features:

- For standard and isolated 60mm busbar systems
- Supports common busbar sizes from 12 to 30mm, 5 and 10mm thickness
- SPD Plugs available as Type 1, Type 2 or Type 2 with integrated fuse
- Visual and remote signalization of fuse and SPD status (T2F)

### Benefits:

- Shorter connections improve overall voltage protection level
- Pluggable design enables fast & simplified installation
- Reduced installation time and space requirements
